

Anno-Museums in Hedemark

A wander through time

Enjoy beautiful Gregorian chanting in the spectacular cathedral ruins from medieval times. Listen to the “voice of the century” in the house where she was born, or learn about Edvard Munch’s connection with his birthplace, Løten.

Visit Norway’s only Women’s Museum, or the national museum on forest. Explore the exhibition “The King’s Choice” in the town where the historical events took place and the film was shot. Experience summer farms with animals and oldenday traditions, and enjoy freshly made waffles with homemade sour cream. These are just some of the many experiences on offer at Anno’s 29 museums in Hedemark – from Eidskog in the south to Os in the north. Check our locations and what is on at annomuseum.no
