

# WELCOME TO MJØSSAMLINGENE

## Seafaring and sailors on Mjøsa

Mjøsa also has coastal culture! The lake was an important transportation route and connected the people of the region. Visit Mjøsa's maritime museum in Minnesund and experience the colorful history told through 200 year old boathouses and veteran boats still in use. Did you know that the famous steamboat Skipladner was built on the slipway here in 1856? This remains, to this day, the only place "Mjøsa's white swan" can come ashore when repairs are needed.

Mjøsamlingene are just a stone's throw away from the E6, right underneath the bridges over Minnesund. We accept bookings from groups and bus tours all year round.
